BioVate Washing up liquid

BioVate's Washing Up Liquid provides an economical and efficient solution for manual dishwashing, swiftly cutting through grease while leaving crockery and glassware streak-free. Its versatile formulation is suitable for a range of surfaces, simplifying the cleaning process. Just pour into the sink, add water, soak items to loosen dirt, then air dry for a streak-free finish. Rinse thoroughly to remove residue. With added additives for spot-free rinsing, it ensures surfaces are pristine and ready for use.

Sustainable Properties: Biovate's dish wash range is the next generation of ware wash cleaning technology. Using planet friendly trilon, fruit acids and zero solvents, 99.99% biodegradability is achieved, minimising environmental impact on waste water. The range's ground breaking concentrations greatly reduce packaging as each 5 litre should last 2-4 times longer than standard dish washing products. Biovate have harnessed the power of nature for maximum cleaning performance with minimum impact on the planet. Container made from post consumer recycled material and is recyclable.
